CG Lab Test

Instructions:

1. For reference to the opengl package RED book is provided.
2. Question paper (pdf) is selected as per the following instructions:
    *   Take the last digit of your roll number .
    *   Take mod using ---- **(last digit of roll number) MOD 13.**
    *   If modulo lies between **1 to 5** then download **mod_number.pdf.**
    *   If mod is between **6 to 10** then use **no=mod_number-5** and download **no.pdf.**
    *   If mod is **>10** then use **no=mod_number-10** and download **no.pdf.**
    *   If mod is 0 (zero) then download **3.pdf.**
    *   For backlog students also this is applicable as per their roll-numbers.

e.g.

Rollnumber=13103	last digit=3	3 MOD 13=3
Therefore		download question paper ---- 3.pdf.
Rollnumber=13111	last digit=11	11 MOD 13=11 where 11>10
Therefore 11-10=1		download question paper ---- 1.pdf.
